

AI LITERACY TRAINING

MANDATORY AI TRAINING UNDER THE EU AI ACT

Why an AI literacy training?

To comply with the AI Act, companies using or developing AI must ensure their employees are AI-literate by February 1st, 2025. Our training equips your team with the knowledge to understand AI, its societal impact, and how to interpret AI outputs effectively.

Key features

- **No prior knowledge required:** The course is tailored to accommodate all levels of experience, from beginners to advanced users.
- **Flexible learning options:** Choose between on-site training at your company or online sessions.
- **Hands-on learning:** Engage in practical exercises that reinforce AI concepts and applications.
- **Expert instruction:** Delivered by experienced teaching professionals with extensive AI knowledge.

Who should attend?

This training is suitable for anyone working with AI within your organization, from technical staff to decision-makers.
